

# KRINNER

## SERVICE PACKAGES

## PERFECTLY PREPARED

Ensure that your machine can deliver 100% performance and that the next season runs smoothly. How can you increase your uptime, maintain the maximum performance of your machine and reduce your costs - regardless of the age of your machine?

Arrange an Expert Check today. That's all there is to it. Keep older, less frequently used machines in good condition and make sure that new machines perform at their best all year round.

### For newer machines

During this comprehensive inspection, repairs are carried out using original parts in order to increase the machine's service life, maintain its maximum performance and reduce costs.

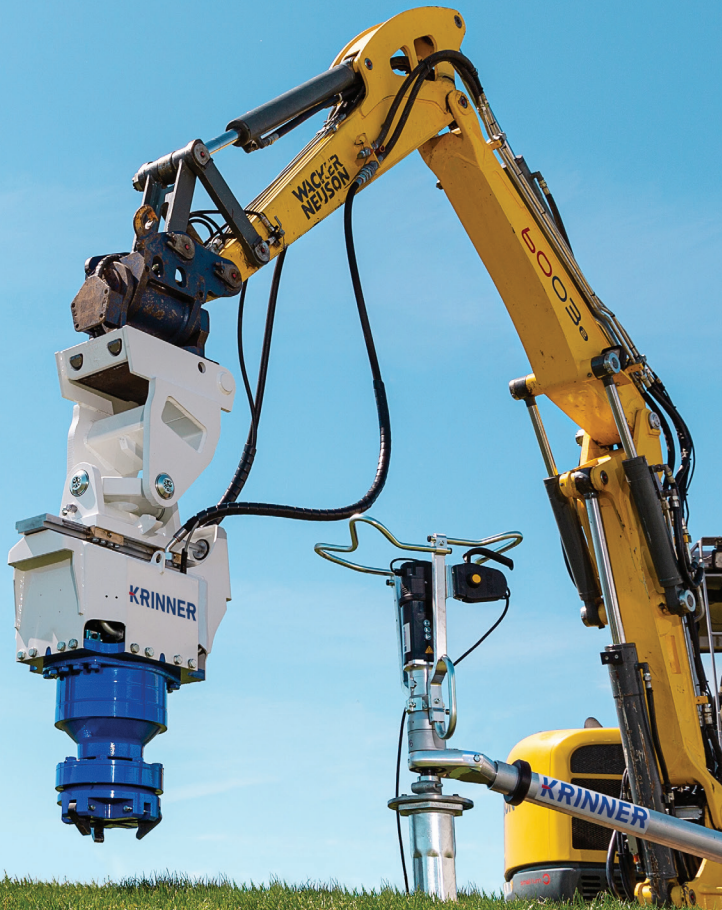

**7+**

### For Machines older than 7 years

A thorough inspection that focuses on replacing known parts in order to maintain the machine's performance.

# FOR A LONGER LIFESPAN IN THE NEXT SEASON

Benefit from our cost-effective and wide-ranging technical inspection as well as attractive offers.
